

Small Alligator Clip to Male Jumper Wire Bundle – 6 Pieces

PRODUCT ID: 3448

Description

When working with unusual non-header-friendly surfaces, these handy cables will be your best friends! No longer will you have long, cumbersome strands of alligator clips. These compact jumper cables have a premium male header on one end and a grippy mini alligator clip on the other.

Grab onto your Flora, Circuit Playground, micro:bit, Gemma, or even a banana, and plug it into a breadboard for prototyping joy and ease!

- 6 piece set, color-coded vinyl-covered 1" alligator clips on one end and male jumper wires on the other end
- Contains one of each: black, red, white, green, blue, and yellow
- 26 AWG
